MEMORANDUM FOR THE RECORD

SUBJECT : Notification of State Department on Successful CORONA Firing

Mission 9022 was airborne at 3:59 p.m., Washington local time, 12 September, after which in accordance with the provisions in Mr. Bissell's memorandum of 7 August (DD/P 1-4067), I attempted to notify Mr. Roger Hilsman, Director, Research and Intelligence, in the State Department of the launching and the subsequent separation of the first and second stages. As has been my lot recently, Mr. Hilsman was not available, and his secretary simply added my call-back notice to any number of others on which there has been no response this week.
